

SEND A PATIENT TO RARE DISEASE CAMP

No cost medical specialty camp for young people 8-15.

Rare Diagnoses Include:

- Mast Cell Activation Syndrome
- VACTERL association
- Rare Syndromes*
- Over 7 prescribed medications
- Specialized medical care required (tubes, lines, etc.)

*May be waitlisted if low enough acuity to attend a non-medical camp

Example Program Adaptations:

FHF anticipates increased use of wheelchairs and mobility adaptations in activity areas. Care needs are normalized by arranging and integrating into activity schedule (flushes, feedings, etc). Golf cart rides are also available for easier transportation if needed.
