

SEND YOUR KID TO SPINAL CORD CAMP

Medical specialty camp for kids - always free!

Spinal Cord Camp is July 15 - 19, 2026

- 24/7 onsite medical care
- Licensed & certified medical team and psychosocial team at all sessions
- 200 acres to explore with adaptive activities
- 70+ campers sharing similar diagnoses and experiences
- During Spinal Cord Week, FHF prepares camp for adaptations within activity areas like high ropes (seated harness, haul), boating (adaptive boat launch), and archery (seated shooting position). Camp utilizes all-terrain wheelchairs and a seated water wheelchair system to ensure all campers can participate in activities, and maintains a newly-paved center path that can be used to safely navigate throughout camp. Camp also has the ability to arrange and integrate care needs into activity schedule (flushes, feedings, etc.)

Scan to apply today!

**Priority application deadline
March 16, 2026**

For campers ages 8-15
